20a. How does the Committee accomplish its purpose?

Members of the proposal panels reviewed and provided written evaluations on over 2900 research proposals. Panels were used to review proposals submitted to the Division of Information and Intelligent Systems. This advice was used to help the program officer make sound decisions in allocating program funds. The panel's accomplishments during this current year was the successful evaluation of proposals submitted to the NSF/CISE/IIS programs.

20b. How does the Committee balance its membership?

Membership was selected in response to specific proposals and applications to be reviewed. Over 1120 panelist were used this year. Members were selected for their demonstrated scientific and engineering expertise so as to represent a reasonable balance of capability in the various subfields of the proposals to be reviewed. Consideration was also given to achieving geographic balance and to enhancing representation for women, minority, younger and disabled scientists.

20c. How frequent and relevant are the Committee Meetings?

One hundred and forty-two meetings were held in FY 2018. The number is determined by

the number of proposals to be reviewed and the need for as timely review as possible within the limited resources available for support of the panel.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

While ad hoc mail reviewers can be chosen to give a thorough technical review of a proposal, mail reviewer judgments are normally made about a single proposal viewed in isolation. Panel review provides judgments about the comparative merits within a group of proposals or within a single complex, multidisciplinary proposal.

20e. Why is it necessary to close and/or partially closed committee meetings?

To review proposals that included information of a proprietary or confidential nature, including technical information; financial data such as salaries; and personal information concerning individuals associated with the proposals.

21. Remarks

None

Narrative Description

The NSF mission is set out in the NSF Act of 1950 authorizes and directs the Agency to initiate and support: basic scientific research and research fundamental to the engineering process; and science and engineering education programs at all levels and in all fields of science and engineering. The involvement of knowledgeable peers from outside the Foundation in the review of proposals is the keystone of NSF's proposal review system. Their judgments of the extent to which proposals address the merit review criteria are vital for informing NSF staff and influencing funding recommendations.
